Super Second Graders

Our Second graders had a great time making hats, special snacks, etc. celebrating the 100th day of school. We will send out notes soon about the upcoming field trip to Global Wildlife on April 27th. We are also in the planning stages of a second grade spring program. The students have finished social studies and are enjoying science for the remainder of the year. Students and teachers are looking forward to discovering the wonders of science through experiments and investigations. We are so excited to see our little ones progress and mature. Thanks for all of your support on our journey through 2nd grade.
