

Family Resource Center

...a loaning library

**"A family is a child's
first and most
important teacher."**

What is the Family Resource Center? The FRC is a loaning library open to parents with children enrolled in Livingston Parish Public Schools. Our goal is to provide resources to parents that will assist families with their child's educational needs.

What services are offered at the FRC? The FRC has educational materials available for loan to LPPS families, as well as a certified teacher on staff to assist with material selections. A skill based worksheet station offers additional practice in ELA and math for Pre-K through fifth grade students. Books and DVDs are available for parents with information such anxiety, ADD/ADHD, dyslexia, and special needs. In addition to educational materials, we also offer free monthly workshops on a wide variety of subjects.

The FAST Pass

What is a FAST pass? The acronym FAST stands for Families and Schools Together. The FAST Pass is a form given to all Livingston Parish Public School Teachers by the Family Resource Center. Teachers may complete the FAST Pass for any child that may be struggling with classroom skills and would benefit from additional help at home. The Pass may also be provided for children that need more challenging activities. The FAST Pass is NOT a pass for free tutoring. It simply allows us at the FRC to better help suggest materials that target those skills listed on the pass.

Do parents need a FAST pass to visit the FRC? Parents do not need a FAST pass to use the center. Parents may visit any time during our hours of operation to browse through our learning materials and check out items to use at home with their child.

Available Materials

Education Materials for loan include items such as : CD's, DVD's, math games, reading comprehension games, books, electronic games, Leapsters, Tag Readers, Rhymes N' Times, Math Slam, Digitz, talking globes, elapsed time clocks, and much more! All materials available for loan will help to reinforce important skills taught within the classroom.
